

Information & User Guidance

Uses

A powerful acid based detergent designed to remove limescale and water staining from automatic catering equipment. Ideal for descaling bain-marie, stainless steel water boilers, steamers, dishwashing and glasswashing machines.

How to Use

Heavy Scale: Dilute 1 part with up to 5 parts of water, soak or brush machine parts to be descaled with solution. Agitate if necessary and thoroughly rinse 2 or 3 times with water. Increase dilution up to 1 part to 20 parts of water depending on the level of scale. Use a dilution of up to 1 part to 80 parts of water to remove water staining. Always test a small area with the solution to check compatibility.

Technical:

State: Liquid

Colour: Brown

Odour: Characteristic odour

Oxidising: Non-oxidising (by EC criteria)

Solubility in water: Soluble

Viscosity: Non-viscous

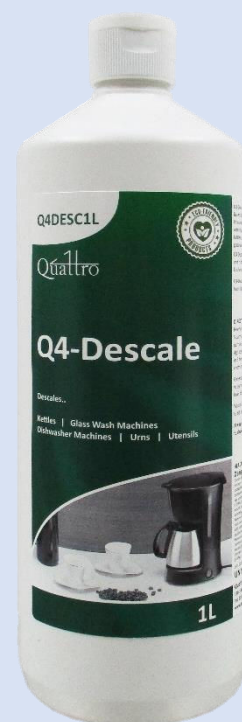

Boiling point/range °C: 100

Flash point °C: >70

pH Level: <1.5

Persistence and Degradability: Biodegradable.

Always read the label and product information before use.

Please ask the customer care team for the corresponding Safety Data Sheets and COSHH risk assessment guidance notes relating to this product.
