

COSHH Risk Assessment

Teamwork 2 Toilet Descaler (1 Litre)

Process Stage	Potential Risk	Control Measures	Action Required
Delivery			
Packaged in 12 x 1 litre bottles, in a cardboard carton. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
Storage			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original container. Keep out of reach of children.	Risk of emission of noxious fumes if involved in a fire – product itself is not classed as flammable. Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Ensure that the product is stored away from any oxidising materials i.e. bleach and hypochlorite as toxic gas will be evolved. Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are not split or blown.
Usage			
Can be dispensed into a bucket or bowl of water, either directly or with the use of a pump dispenser. Product can be applied with a mop or cleaning cloth, for general cleaning. Apply to toilet bowl undiluted.	Risk of skin irritation. Risk of serious eye damage. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wear Personal Protective Equipment. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately.	Provide employees with PPE as follows, Protective overall, Protective eye/face protection, Household rubber gloves. When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid Facilities and personnel.
Disposal			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure product is exhausted before disposal. Ensure product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
